Meet the Scientists of Tomorrow

RSVP required by Monday, November 9.

Reply to ann@annsevents.com or call 832.673.0860.

THE SCIENTISTS OF TOMORROW

Award-winning graduate students will be on hand to discuss their research project posters reflecting the latest scientific advances. These students, many of whom are Phi Beta Kappans, investigate major health concerns such as cancer, cardiovascular disease, pre-eclampsia, Tourette syndrome, genetic diseases, vision, drug abuse, infectious diseases, and birth defects. The three shown are representative of eight award-winning graduate students specially invited to present their research to you.

Roxann Irani

Field of Study:

Hypertension in Pregnancy
and Autoimmunity

Josh Gowin

Field of Study:

Drug Abuse/Aggression

Brett Chiquet

Field of Study:

Birth Defects
